Contents of Volume 9

PSYCHOPHYSICS

- Intensity scales for pure tastes and for taste mixtures by H. R. Moskowitz, 30
- Response system processes in absolute judgment by L. M. Ward and G. R. Lockhead, 73
- Neutral vs ego-orienting instructions: Effects on judgments of magnitude estimation by J. Goldner, M. E. Reuder, B. Riba, and D. Jarmon, 84
- Subject differences in cross-modality matching by S. J. Rule and R. P. Markley, 115
- Scales of selected aspects of kinesthesia by P. A. Hoff, 118
- Methodological examination of the PEST (parametric estimation by sequential testing) procedure: II by I. Pollack, 229
- Psychophysical scales of the olfactory pleasantness of homologous alcohols by K. E. Henion, 234
- Speed and accuracy in comparative judgments of line length by S. W. Link and A. D. Tindall, 284
- Comparison of cupulometric and psychophysical thresholds for perception of rotation and the oculogyral illusion by S. L. Dockstader, 299
- The invalidity of "invalid results from the method of constant stimuli": A common artifact in the methods of psychophysics by R. Sekuler and A. Erlebacher, 309
- Method of constant stimuli: Invalidity to the third power by F. Restle and M. Levison, 312
- Response frequency equalization: A bias model for psychophysics by A. Erlebacher and R. Sekuler, 315
- Ratio scales of acid sourness by H. R. Moskowitz, 371 (9-3B)
- Individual psychophysical functions for 28 odorants by B. Berglund, U. Berglund, G. Ekman, and T. Engen, 379 (9-3B)
- Differential effects of familiarity on judgments of sameness and difference by H. Egeth and D. Blecker, 321 (9-4)
- Absolute judgments of colors using natural color names by A. Chapanis and C. M. Overbey, 356 (9-4)
- Magnitude estimation of apparent sums and differences by W. E. Dawson, 368 (9-4)
- Contrast effects on the auditory evoked response and its relation to psychophysical judgments by M. Buchsbaum, J. Silverman, R. I. Henkin, and A. Pfefferbaum, 379 (9-4)
- Generation of multiple ratio scales with a fixed stimulus attribute by J. C. Baird, M. Kreindler, and K. Jones, 399

- Judgment of short time intervals while performing mathematical tasks by W. Burnside, 404
- The effects of viscosity upon perceived sweetness by P. Arabie and H. R. Moskowitz, 410
- Validation of ratio scales of opinion by multimodality matching by W. E. Dawson and R. P. Brinker, 413
- Perception of two-dimensional Markov constraints within visual displays by I. Pollack, 461
- Odor intensity: Differences in the exponent of the psychophysical function by W. S. Cain (Vol. 6, pp. 349-354)
- Olfactory power law exponents and water solubility of odorants: A comment on Cain's (1969) study by M. J. Mitchell, 477
- Physiochemical characteristics and supraliminal odor intensity: Reply to Mitchell by W. S. Cain, 478
- Human visual motion sensitivity: Evidence against a ratio theory of sensory coding by R. Sekuler, D. Lehr, W. Stone, and M. Wolf, 483

DETECTABILITY

- Channel, temporal, and composite uncertainty in the detection and recognition of auditory and visual signals by D. C. Earle and G. Lowe, 177
- Detection of auditory signals presented at random times: III by D. M. Green and R. D. Luce, 257
- Signal-detection analysis of luminance generalization in goldfish using latency as a graded response measure by D. Yager and I.-A. Duncan, 353 (9-3B)
- Deterministic vs probabilistic strategies in detection by M. Kubovy, A. Rapoport, and A. Tversky, 427
- Detection and placement of redundant signal elements in tachistoscopic displays of letters by E. L. Bjork and W. K. Estes, 439
- The latencies of correct and incorrect responses in discrimination and detection tasks: Their interpretation in terms of a model based on simple counting by A. R. Pike, 455
- Detection of change in nonstationary binary sequences by J. Theios, J. W. Brelsford, Jr., and P. Ryan, 489
- Detectability of the deletion of a tone from a tone-plus-noise background by A. I. Schulman, 496

VISION (GENERAL)

- Brightness and retinal locus: Effects of target size and spectral composition by L. E. Marks, 26
- The two-flash threshold: An evaluation of critical duration and visual persistence

- hypotheses by D. G. Purcell and A. L. Stewart, 61
- Border contrast as a function of retinal locus by D. E. Anderson, 105
- Amount of surround and test-inducing separation in simultaneous brightness contrast by R. E. Cole and A. L. Diamond, 125
- Color name as a function of surround luminance and stimulus duration by M. H. Siegel and A. B. Siegel, 140
- Achromatic surface color and the direction of illumination by H. R. Flock, 187
- The retinal threshold gradient in the presence of a high-luminance target and in total darkness by R. F. Haines, 197
- Statistical properties of Pollack's PEST procedure by P. Rendleman, R. M. Rose, and D. Y. Teller, 208
- A study of afterimages generated by monocular and dichoptic viewing by M. L. Matthews, 225
- Effects of eye movements on the rate of discovery and the vividness of visual images by S. M. Hale and H. M. Simpson, 242
- A forced-choice study of edge detectors in the human visual system by S. Woll, C. W. Eriksen, and H. W. Hake, 247
- Duration discrimination of brief light flashes by L. G. Allan, A. B. Kristofferson, and E. W. Wiens, 327 (9-3B)
- Intermittent stimulation of binocular disparate colors and central color fusion by H. Ono, M. Komoda, and E. R. Mueller, 343 (9-3B)
- Difference information in brightness perception by L. E. Arend, J. N. Buehler, and G. R. Lockhead, 367 (9-3B)
- Visual resolution in the periphery by J. L. Kerr, 375 (9-3B)
- Aftereffect of visual movement: Storage in the absence of a patterned surround by E. R. Strelow and R. H. Day, 485

VISUAL MASKING

- Spatial and temporal factors in masking by edges and disks by M. L. Matthews, 15
- W-shaped and U-shaped functions obtained for monoptic and dichoptic disk-disk masking by N. Weisstein, 275
- Perceptual masking: Peripheral vs central factors by M. L. Kietzman, R. C. Boyle, and D. B. Lindsley, 350 (9-4)
- The effect of interval and number on masking with dot bursts by W. R. Uttal, 469
- Interaction of forward and backward visual masking by J. Hogben, 487

FORM PERCEPTION

- The misperception of angles: Estimating the vertex of converging line segments

- by D. J. Weintraub and V. Virsu, 5
- Instructions and the magnitude of an illusion: Cognitive factors in the frame of reference by F. Restle, 31
- Internal-external control of reinforcement and embedded-figures performance by J. E. Chance and A. G. Goldstein, 33
- Tendencies to eye movement, and misperception of curvature, direction, and length by V. Virsu, 65
- Feature utilization of continuously varying attributes in visual pattern classification by L. S. Aiken and D. Brown, 145
- An extension of assimilation theory to illusions of size, area, and direction by A. W. Pressey, 172
- A masking approach to the problem of form perception by W. R. Uttal, 296
- Underestimation of curvature and task dependence in visual perception of form by V. Virsu, 339 (9-3B)
- Measures of symmetry by L. Zusne, 363 (9-3B)
- The synthesis of length within and between perceptual systems by E. Abravanel, 327 (9-4)
- The angular function of a rod-and-frame illusion by H. C. Beh, P. M. Wenderoth, and A. T. Purcell, 353 (9-4)
- Laterality effects in perceptual matching by H. Egeth, 375 (9-4)
- Comparison of matching and drawing in the perception of shape at various intelligence levels by H. W. Leibowitz and E. J. Saccà, 407
- The corridor illusion by W. Richards and J. F. Miller, Jr., 421
- Judgment of angle size: An experimental appraisal by I. E. Maclean and B. G. Stacey, 499

RECOGNITION AND RECALL

- Effect of direction of sequential presentation and redundancy on short-term recognition memory by L. E. Krueger, 121
- Feature encoding and pattern classifications with sequentially presented Markov stimuli by B. R. Brown and C. E. Aylworth, 203
- Perception and memory loss of item and order information in short-term memory by L. Henderson and M. L. Matthews, 231
- Visual recognition memory for complex configurations by A. G. Goldstein and J. E. Chance, 237
- A feature utilization analysis of the perception of pattern class structure by L. S. Aiken and D. R. Brown, 279
- Recognition of inversions of melodies and melodic contours by W. J. Dowling, 348 (9-3B)
- An objective test of goodness of fit of the continuous strength model in STM by L. E. Wood, 424

- Models for the processing and identification of faces by J. L. Bradshaw and G. Wallace, 443
- Repeated vs varied distractors in immediate memory by I. E. Gordon and P. Fenoulhet, 474
- Age and task effects in short-term memory of children by K. Keely, 480

SPACE PERCEPTION

- The validity of the size-distance invariance hypothesis with cue reduction by W. C. Gogel, 92
- Prism adaptation: The "target-pointing effect" as a function of exposure trials by R. B. Welch, 102
- Adaptation to displaced vision: Variations on the "prismatic-shaping" technique by R. Dewar, 155
- Binocular stereopsis without spatial disparity by D. N. Lee, 216
- The effect of verbal size information upon visual judgments of absolute distance by M. Coltheart, 222
- Sensory direction in homogeneous binocular visual space by T. Shipley and S. C. Rawlings, 335 (9-4)

MOTION PERCEPTION

- Visual movement perception: A comparison of absolute and relative movement discrimination by R. A. Kinchla, 165
- Properties of changing patterns evoking visually perceived oscillation by E. Börjesson, 303
- Power laws for the perception of rotation and the oculogyral illusion by W. Elsner, 418

HEARING

- Syntactic structure and acoustic pattern in speech perception by A. Wingfield and J. F. Klein, 23
- The effects of eye position and expectation on sound localization by T. C. Weerts and W. R. Thurlow, 35
- Delay of auditory input in "simultaneous" auditory and visual short-term memory by R. L. Dornbush, 97
- The monaural localization of tonal stimuli by R. A. Butler, 99
- Cueing signals in auditory detection and frequency discrimination experiments by D. S. Emmerich, 129
- Confidence ratings in speech perception research: Evaluation of an efficient technique for discrimination testing by W. Strange and T. Halwes, 182

CHEMICAL AND CUTANEOUS SENSES

- Localization of visceral pain and other sensations before and after anesthesia by G. von Békésy, 1
- Vibrotactile thresholds measured at the

- finger by R. T. Verrillo, 329 (9-4)
- Spatial summation and the dynamics of warmth sensation by J. C. Stevens and L. E. Marks, 391
- The effect of adaptation on odor detection by B. Berglund, U. Berglund, T. Engen, and T. Lindvall, 435

INFORMATION PROCESSING

- Response latencies in visual search involving redundant or irrelevant information by G. C. Stone, 9
- Discrimination of restrictions in sequentially encoded auditory displays: Block designs by I. Pollack, 57
- Information retrieval from two rapidly consecutive stimuli: A new analysis by G. Sperling, 89
- The influence of stimulus incongruity on the familiarity effect in visual selection by T. T. Faw and J. C. Nunnally, 150
- The effect of stimulus element redundancy on speed of discrimination as a function of state and process limitation by J. H. Flowers and W. R. Garner, 158
- Discrimination of restrictions upon auditory sequentially encoded information: Block parity by I. Pollack, 253
- Iconic memory and central processing capacity by R. Doost and M. T. Turvey, 269
- The effects on speeded classification of implicit and explicit instructions regarding redundant dimensions by G. L. Felfoldy and W. R. Garner, 289
- A reversal of the Stroop interference effect, through scanning by J. S. Uleman and J. Reeves, 293
- Discrimination of restrictions upon sequentially encoded information: Variable length periodicities by I. Pollack, 321 (9-3B)
- Discrimination of restrictions in sequentially blocked auditory displays: Shifting block designs by I. Pollack, 335 (9-3B)
- Processing time for naming and categorization of letters and numbers by A. O. Dick, 350 (9-3B)
- On the processing of simple visual and auditory stimuli at distinct levels by D. LaBerge, 331 (9-4)
- High-speed memory retrieval with auditorily presented stimuli by D. J. Foss and B. E. Dowell, 465

PERFORMANCE

- Reaction time as a function of stimulus uncertainty on a single trial by A. E. Bartz, 95
- Intersensory effects in the psychological refractory period by I. H. Bernstein and M. H. Clark, 135
- Synchronization of unimanual and bimanual responses with monotic and

- dichotic clicks by L. T. Guzy and S. Axelrod, 161
- Infant responses to approaching objects: An indicator of response to distal variables by T. G. R. Bower, J. M. Broughton, and M. K. Moore, 193
- Response probabilities and "same-different" reaction times by B. D. Downing, 213
- Note on looking time: Experimenter and instruction effects by K. S. Keleman, 224
- Instruction effects on watch keeping in a "simple" vigilance task by P. Tolin, 227
- Two-channel visual memory by M. C. Corballis and L. Luthé, 361 (9-4)
- The effects of instructions, fixed rate of presentation, and complexity on free looking time by H. Waibel and R. W. Thompson, 377 (9-4)
- Intramodal and crossmodal sensory transfer of visual and auditory temporal patterns by L. Rubinstein and E. M. Gruenberg, 385
- The equivalence of target and nontarget processing in visual search by J. P. Cavanagh and W. G. Chase, 493
- VERBAL PROCESSES**
- Theoretical analysis of an alphabetic confusion matrix by J. T. Townsend, 40
- Verbal retention after shadowing and after listening by P. W. Carey, 79
- Sequential letter and word recognition in deaf and hearing subjects by R. D. Zakia and R. N. Haber, 110
- Syntactic locus as a determinant of judged pause duration by S. Fillenbaum, 219
- Psychological correlates of the French sound system by A. d'Anglejan, W. E. Lambert, G. R. Tucker, and J. H. Greenberg, 356 (9-3B)
- Speech perception and phonemic restorations by R. M. Warren and C. J. Obusek, 358 (9-3B)
- Perception and immediate recall of normal and "compressed" auditory sequences by D. Aaronson, N. Markowitz, and H. Shapiro, 338 (9-4)
- Identification times for phonemic components of graded complexity and for spelling of speech by R. M. Warren, 345 (9-4)
- Temporal anagrams: Word identification with successively presented letters in scrambled order by I. Pollack, 430
- Alphabetic confusion: A test of models for individuals by J. T. Townsend, 449

Contents of Volume 10

PSYCHOPHYSICS

- Effect of presentation procedure on taste intensity functions by H. L. Meiselman, 15
- A test of independence of dimensions in multidimensional scaling by K. Wender, 30
- Temporal numerosity estimates for word lists by D. H. Lawrence, 75
- Laterality effects in the method of triads by R. F. Hall, 101
- Cross-modality matching of muscular tension to loudness by L. J. J. Bruno, R. F. Hefferline, and P. D. Suslowitz, 115
- How repeatable are Stevens's power law exponents for individual subjects? by M. Teghtsoonian and R. Teghtsoonian, 147
- Direct psychophysical scaling of the olfactory pleasantness of diluted n-amyl acetate by K. E. Henion, 158
- Audio analgesia: Lack of a cross-masking effect on taste by D. McFadden, E. A. Barr, and R. E. Young, 175
- Spatial numerosity discrimination as contingent upon sensory and extrinsic factors by E. C. Lechelt, 180
- Parameters of visual simultaneity and of metacontrast and paracontrast of successively presented letters by P. Fraise, 185
- The threshold for successiveness by J. Baron, 201
- Neural model for the Stevens power law by J. Cohen and W. Little IV, 269
- Factors affecting the filled-duration illusion in the auditory, tactual, and visual modalities by L. Buffardi, 292
- Response requirements and the contrast effect in loudness judgments by L. E. Melamed, 309
- The effect of the repeated presentation of a standard interval on the reproduction of the standard by T. Maloney and E. Callaway, 356
- Size, convexity, and curvature magnitude estimations of curvilinear forms by R. Dobson, 371
- Magnitude estimation of multidimensional stimuli by J. Feldman and J. C. Baird, 418

SIGNAL DETECTION

- Serial order effects in auditory discrimination by oddity and matching to sample by D. G. Doehring, 137
- Detection and recognition of increments and decrements in auditory intensity by N. A. Macmillan, 233
- Effects of amount and kind of prior target-uncertainty reduction in the

- repeated-presentations paradigm by T. R. Herzog, 273
- Signal recognition models compared for random and Markov presentation sequences by A. Sandusky, 339
- Active detection of solid-shape information by touch and vision by E. Abravanel, 358
- Absolute thresholds in vibrotactile signal detection by G. A. Gescheider, J. H. Wright, B. J. Weber, and W. G. Barton, 413
- Facilitation of olfactory detection by T. E. Corbit and T. Engen, 433

VISION (GENERAL)

- Differential luminance sensitivity of the human visual system by J. M. Thijssen and A. J. H. Vendrik, 58
- David Brewster's observations on perception when touch and vision conflict: An historical note by W. Epstein, 97
- Brightness contrast in the cat by R. Pasnak, 150
- The effect of feedback on luminance thresholds for peripherally presented stimuli by C. N. Abernethy III and H. W. Leibowitz, 172
- Shifts in categorization and identifiability of visual stimuli by rhesus monkeys by M. Wilson, 271
- Dichoptic interaction of visual structure and light flashes by P. Eskildsen, T. S. Newton, and D. Lehmann, 364

VISUAL MASKING

- Backward masking, disinhibition, and hypothesized neural networks by D. N. Robinson, 33
- A reply to Robinson by W. R. Uttal, 36
- Visual cortical evoked potentials under conditions of sequential blanking by J. L. Andreassi, M. S. Mayzner, D. R. Beyda, and S. Davidovics, 164
- The recovery of a visually masked target by N. R. Long and J. A. Gribben, 197
- The joint effect of forward and backward visual masking: Some comments on Uttal's "Character in the hole" experiment by T. Walsh, 265
- A reply to Walsh by W. R. Uttal, 267
- Visual masking by light offset by R. J. Holzworth and M. E. Doherty, 327
- Lateral masking for letters with unlimited viewing time by J. T. Townsend, S. G. Taylor, and D. R. Brown, 375

FORM PERCEPTION

- Visual capture in visual illusions by J. T. Walker, 71
- Erratum, 392

- A comment on "The apparent size of 'projected' afterimages under conditions where size-constancy holds" by M. Teghtsoonian, 98
- More data and arguments for partial failure of Emmert's law under conditions of size constancy and veridical distance perception: Rejoinder to Teghtsoonian's comments by J. J. Furedy and G. Stanley, 99
- The angle of intersection of contours as the determinant of a geometric illusion by R. I. Horrell, 208
- Stabilized images: The search for pattern elements by M. J. Schmidt, D. D. Fulgham, and D. R. Brown, 295
- Simple time reaction as a function of luminance for various wavelengths by A. Lit, R. H. Young, and M. Shaffer, 397
- Contrast and assimilation effects in judgments of line configurations containing the Mueller-Lyer figure by L. L. Avant, 437

SPACE PERCEPTION

- Perceptual economy and the impression of visual depth by D. Vickers, 23
- The role of accommodation in the control of binocular rivalry by L. C. Lack, 38
- Discriminative conditioning of prism adaptation by R. B. Welch, 90
- The effect of a peripheral stimulus on accommodation by R. T. Hennessy and H. W. Leibowitz, 129
- The effect of perceived distance on induced movement by W. C. Gogel and M. Koslow, 142
- A depth processing theory of the Poggendorff illusion by B. Gillam, 211
- Erratum, 392
- The Poggendorff illusion: Amputations, rotations, and other perturbations by D. J. Weintraub and D. H. Krantz, 257
- On the geometry of spiral aftereffect by W. L. Milligan and T. R. Scott, 389
- The effect of repeated trials on a figural aftereffect by H. Wagner, 403
- The use of size matching to demonstrate the effectiveness of accommodation and convergence as cues for distance by H. Wallach and L. Floor, 423

MOTION PERCEPTION

- Does head-movement feedback calibrate the perceived direction of optical motions? by J. C. Hay, 286
- The relationships among time, distance, and intensity as determinants of motion

- discrimination by D. C. Henderson, 313
- HEARING**
- Echolocation in the blinded rat by R. A. Bell, M. E. Noble, and W. F. Daves, 112
- Loudness effects in pairs of tone bursts by R. J. Irwin and J. J. Zwillocki, 189
- Ear asymmetry in a dichotic detection task by S. P. Springer, 239
- Relational and absolute cues in auditory discrimination by monkeys by D. N. Elliott, L. A. Frazier, and R. C. Hayden, Jr., 278
- CHEMICAL AND CUTANEOUS SENSES**
- Potassium gymnemate and the sweet and bitter taste provoked electrically by Z. Bujas and C. Pfaffmann, 28
- Temporal summation of pain from radiant stimulation by D. J. Dillon, 109
- Summation of pain produced in different anatomical regions by R. B. Messing and B. A. Campbell, 225
- Contrast reversal or distance paradox in the temperature perception aftereffect? by M. M. Taylor, 247
- Taste and water taste of twenty-six compounds for man by D. H. McBurney and T. R. Shick, 249
- A haptic error: Skew in a symmetrical curve by J. J. Goodnow, B. Baum, and P. Davidson, 253
- Parametric aspects of tactile resolution by A. Carmon and A. L. Benton, 331
- Masking of and by tactile pressure stimuli by O. Abramsky, A. Carmon, and A. L. Benton, 353
- RECOGNITION AND RECALL**
- Recognition time for information stored in long-term memory by J. F. Juola, I. Fisciler, C. T. Wood, and R. C. Atkinson, 8
- Feature saliency and recognition memory for schematic faces by M. P. Friedman, S. K. Reed, and E. C. Carterette, 47
- Does familiarity affect transfer from an iconic to a short-term memory? by W. A. Phillips, 153
- Serial position effects in high-speed memory search by D. Burrows and R. Okada, 305
- Parallel processing in item recognition by S. H. Ellis and W. G. Chase, 379
- Sex, race, age, and beauty as factors in recognition of faces by J. F. Cross, J. Cross, and J. Daly, 393
- INFORMATION PROCESSING**
- Variables influencing the mode of processing of complex stimuli by D. P. Grill, 51
- The influence of irrelevant information on speeded classification tasks by A. D. Well, 79
- Parallel encoding within and between elementary stimulus dimensions by D. A. Allport, 104
- The encoding of perceptual information in the organization of individual stimulus patterns by J. S. Lappin, C. R. Snyder, and C. Blackburn, 123
- A note on the identifiability of parallel and serial processes by J. T. Townsend, 161
- The influence of similarity between relevant and irrelevant information upon a complex identification task by M. H. Hodge and L. S. Reid, 193
- Objective and subjective complexity measures for a new population of patterns by J. G. Snodgrass, 217
- Practice and some methodological problems in unidimensional information transmission by A. Fulgosi and B. Bartolović, 283
- Specialization of the cerebral hemispheres in scanning for information in short-term memory by R. L. Klatzky and R. C. Atkinson, 335
- Manipulation of visual processing by varying the rewards associated with display locations by P. Shaw and D. LaBerge, 348
- Transformation-invariant cues in the recognition of simple visual patterns by J. S. Lappin, 367
- The role of left-right orientation in interhemispheric matching of visual information by M. C. Corballis, A. Miller, and M. J. Morgan, 385
- Imagery ability and visual perception of verbal and nonverbal stimuli by A. Paivio and C. H. Ernest, 429
- PERFORMANCE**
- Additivity of risk in portfolios by C. H. Coombs and J. Bowen, 43
- Effect of anesthetic drugs on time production and alpha rhythm by N. Adam, B. S. Rosner, E. C. Hosick, and D. L. Clark, 133
- Lighting factors affecting the visibility of a moving display by R. D. Gilson, 400
- VERBAL PROCESSES**
- Can simultaneous speech stimuli be classified in parallel? by A. M. Treisman and S. Fearnley, 1
- Does verb structure affect sentence comprehension? by D. T. Hakes, 229
- Theoretical analysis of an alphabetic confusion matrix by J. T. Townsend (Vol. 9, pp. 40-50)
- Erratum, 256
- Effects of task on the perceptual organization of sentences by P. R. Ammon, B. Ostrowski, and K. Alward, 361
- Imagery and comprehension latencies as a function of sentence concreteness and structure by A. Paivio and I. Begg, 408
- ATTENTION AND SEARCH**
- The effects of stimulus familiarization on patterns of visual selection by T. T. Faw and J. N. Olson, 19
- Automatizing of visual attention by C. J. Furst, 65
- Two studies of visual search for word targets with controlled rates of presentation by D. H. Lawrence, 85
- The effects of levels of information conflict on visual selection by R. L. Durham, J. C. Nunnally, and L. C. Lemond, 93
- A Bayesian prediction of multiple-look identification performance from one-look data: The effect of unequal prior probabilities by S. M. Keeley and M. E. Doherty, 119
- Visual search through word lists as a function of grade level, reading ability, and target repetition by R. Leslie and R. C. Calfee, 169
- Effects of complexity and prechoice stimulation on exploratory choice by D. E. Berlyne and J. B. Crozier, 242
- A parallel-processing model for scanning by B. B. Murdock, Jr., 289
- Searching for targets: The effects of specific practice by D. Graboi, 300
- Selective attention and serial processing in briefly presented visual displays by C. W. Eriksen and R. L. Colegate, 321
